Anyway,

let me know if your memory holds, or should I plan to set up a call with RD and Pyxis to discuss this option?

OK. I will let Margarita know that Mark was going to work from what the company provided and try to give us an upper and lower range.

I'm not sure what is happening. Margarita has been asking about the different BEANs and what is happening with this action. I told her yesterday that we had a call with Mark about this and she seemed to indicate that she remembered him telling her about the call and that he would be taking the lead. However, he is not copied on any of her questions. And again today wanted to know about the company's commitment to the production cap. I will copy you, Mark and Shanta on my response. (You can also let me know if you think I have misstated something.)

Gotcha! Thanks, again!
